LISTING OF CLAIMS

- 1. (Currently Amended) An isolated nucleic acid comprising a transcriptional unit encoding an engineered Japanese Encephalitis Virus (JEV) signal sequence of a structural protein of a first flavivirus and an immunogenic flavivirus antigen of a second flavivirus other than JEV, wherein the transcriptional unit_directs the synthesis of the immunogenic flavivirus antigen.
- 2. (Currently Amended) The nucleic acid of claim 1, wherein the <u>engineered JEV</u> signal sequence <u>comprises SEQ ID NO:14is a Japanese encephalitis virus signal sequence</u>.
- 3. (Currently Amended) The nucleic acid of claim 1, wherein the immunogenic flavivirus antigen is of a flavivirus selected from the group consisting of yellow fever virus, dengue serotype 1 virus, dengue serotype 2 virus, dengue serotype 3 virus, dengue serotype 4 virus, Japanese encephalitis virus, Powassan virus and West Nile virus.
- 4. (Currently Amended) The nucleic acid of claim 1, wherein the transcriptional unit encodes [a] the engineered JEV signal sequence of Japanese encephalitis virus and an M protein and an E protein of West Nile virus.
- 5. (Currently Amended) The nucleic acid of claim 1, wherein the transcriptional unit encodes [a] the engineered JEV signal sequence of Japanese encephalitis virus and an M protein and an E protein of yellow fever virus.
- 6. (Currently Amended) The nucleic acid of claim 1, wherein the transcriptional unit encodes [a] the engineered JEV signal sequence of Japanese encephalitis virus and an M protein and an E protein of St. Louis encephalitis virus.
- 7. (Currently Amended) The nucleic acid of claim 1, wherein the transcriptional unit encodes [a] the engineered JEV signal sequence of Japanese encephalitis virus and an M protein and an E protein of Powassan virus.

- 8. (Currently Amended) The nucleic acid of claim 1, wherein the <u>immunogenic</u> flavivirus antigen is selected from the group consisting of an M protein of a flavivirus, an E protein of a flavivirus, both an M protein and an E protein of a flavivirus, a portion of an M protein of a flavivirus, a portion of an E protein of a flavivirus and both a portion of an M protein of a flavivirus and a portion of an E protein of a flavivirus or any combination thereof.
- 9. (Currently Amended) The nucleic acid of claim 8, wherein the <u>immunogenic</u> flavivirus antigen is both the M protein and the E protein of a flavivirus.
 - 10. (Original) The nucleic acid of claim 1, wherein the nucleic acid is DNA.
- 11. (Original) The nucleic acid of claim 10, comprising a nucleotide sequence selected from the group consisting of SEQ ID NO:15, SEQ ID NO:19, SEQ ID NO:21 and SEQ ID NO:23.
- 12. (Original) The nucleic acid of claim 1, wherein the transcriptional unit comprises a control sequence disposed appropriately such that it operably controls the synthesis of the immunogenic flavivirus antigen.
- 13. (Original) The nucleic acid of claim 12, wherein the control sequence is the cytomegalovirus immediate early promoter.
- 14. (Currently Amended) The nucleic acid of claim 1, comprising a Kozak consensus sequence located at a translational start site for a polypeptide comprising the <u>immunogenic</u> flavivirus antigen encoded by the <u>transcriptional unit</u>[TU].
- 15. (Original) The nucleic acid of claim 1 wherein the transcriptional unit comprises a poly-A terminator.

- 16. (Original) A cell comprising the nucleic acid of claim 1.
- 17. (Original) A composition comprising the nucleic acid of claim 1 and a pharmaceutically acceptable carrier.
 - 18. through 27. CANCELLED.
- 28. (Currently Amended) The nucleic acid of claim 1, wherein the <u>immunogenic</u> <u>flavivirus</u> antigen is a St. Louis encephalitis virus antigen.
 - 29. CANCELLED.
 - 30. CANCELLED.
 - 31. CANCELLED.
- 32. (Currently Amended) The nucleic acid of claim 1, wherein the <u>immunogenic</u> <u>flavivirus</u> antigen is a yellow fever virus antigen.
 - 33. CANCELLED.
- 34. (Currently Amended) The nucleic acid of claim 1, wherein the <u>immunogenic</u> <u>flavivirus</u> antigen is a dengue virus antigen.
 - 35. CANCELLED.
- 36. (Currently Amended) The nucleic acid of claim 1, wherein the <u>immunogenic</u> flavivirus antigen is a West Nile virus antigen.
 - 37 43. CANCELLED.
